Call for Papers

DLM Forum Annual General Meeting Tallinn, May 31 – June 1, 2018

Members of the DLM Forum Foundation meet for a two-day members' meeting twice a year in spring and autumn, in order to exchange experiences and ideas on current trends of establishing comprehensive information governance over digital records. Participating in the meeting with experts from industry, government and archives with similar responsibilities in IG is an exceptional networking opportunity and rewarding both personally and professionally.

The DLM Forum Foundation is now calling for the submission of proposals for papers to be presented at the Members' Meeting that will be held in Tallinn, May 31-June 1, 2018.

Submission:

Overviews, follow-up and feedbacks of projects or ideas that have been previously described and presented on DLM Forum meetings and where some new milestones or conclusions have been reached are welcome.

Via this call for papers we would like to invite you to send in abstracts for papers (max. 20 minutes). Abstracts of up to 400 words for papers, which should clearly indicate how the proposed paper addresses the conference aims outlined below, should be submitted to Susana Rodriguez (susanarodriguez@wmo.int) before **15th February, 2018**. We will notify you of whether your abstract has been accepted before **25th February, 2018**.

SESSION THEMES

1. Practical approaches to Information Governance

- Results of current research projects and case studies
- Use digital signatures and different forms of e-ID-s: How to guarantee integrity of data and trust in information systems
- Experiences in appraisal of electronic records
- Experiences in management of records in databases instead of traditional ERMSs

2. New technologies in digital archiving

- Results of current research projects and case studies
- Implementation of the results of the E-ARK project
- Different approaches on archiving new media and social media
- Use of blockchain technologies in digital archiving
- Archiving of complex objects

3. Data protection: the impact of the General Data Protection Regulation (EU) 2016/679

- Are we ready? Practical approaches to compliance with GDPR
- The impact of the GDPR in technology and software applications
- Controversial topics from GDPR: interoperability and data portability.

4. International collaboration: cross-borders of archival and record management projects

- Ideas for new project proposals in the area
- Overviews of ongoing international projects
- Presentations of international organisations that act in the area

5. Records management and information science

- Knowledge management and Record Management: use cases and practical experiences
- Professional roles and skills: records manager, information manager, archivist, data scientist, data/information analyst, Digital Archiving and role of Archives as Producers, Custodians and Users of records
- Record transferability between national, regional & international partners
- Records use and re-use for innovation, enterprise, economic growth and cultural development

If you and/or your organization have/has something exciting to share, please feel free to suggest a paper even if it cannot be placed under one of the above mentioned headings.
