

DLM FORUM TRIENNIAL CONFERENCE
23-25 October 2023, Salamanca

KEEPING AND CONNECTING: DATA IN THE DIGITAL SOCIETY

CALL FOR PAPERS (Closed: Deadline September 15th)

SUBTOPICS

1. HARVESTING SOCIAL MEDIA CONTENT

This topic would include both technological developments for harvesting this content as well as the "why" aspect of harvesting social media

2. AI, ARCHIVAL SALVATION OR DOOM?

AI is everywhere and GPT can act in a very human way. Midjourney generates photorealistic visualization that is difficult to distinguish from professional photographer shoots. This topic would include the utilization of AI in benefits of archives

3. ARCHIVAL TECHNOLOGIES

Preservation technologies, storage, etc.

4. DIGITAL HUMANITIES

The softer side of archives

5. ARCHIVAL CONTENT IN USE (RESEARCH, DH, BUSINESS CASES, ETC.)

Actual case presentation where archived data has been successfully utilized

6. DIGITIZATION PROCESSES

How archives are being digitized, incl. a relation to time machine & mass digitization.
