

E-Signatures in Europe: An Introduction to Digital Transformation

Nicolas Jauré, Mid-Market Sales EMEA

Alan Carter, International BA

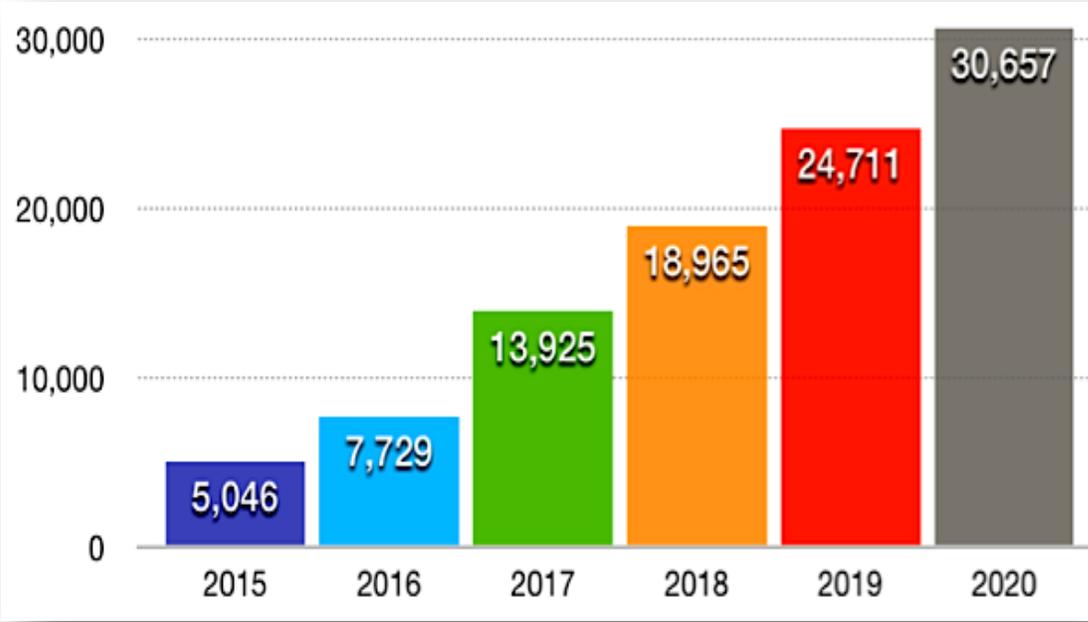

Analyst Predictions

FORRESTER[®]

Forrester predicts e-signature transaction volume to exceed 700 million transactions in 2017 at a 53% annual growth rate

Aragon
Research

Aragon Research predicts market to reach \$30 billion by 2020

E-Signature Adoption

Banks, Credit Unions	Financial Services	Government	eContracting
<ul style="list-style-type: none"> • Mortgage • Disclosures • Lending • Credit card applications • Account openings • Deposits and payments • Treasury management • Wealth management • Internal / Operations 	<ul style="list-style-type: none"> • Account Opening • RRSP • GICs • Mutual Funds • Financing and retail installment contracts • Payment processing & merchant contracts • Internal / Legal 	<ul style="list-style-type: none"> • HR • Procurement • Inspections • Licensing • Field force enablement • Supply chain management • Operations • Accounting • Audits 	<ul style="list-style-type: none"> • Vendor contracts • Contract approval process • Contract award notices • Contract modifications • NDAs • Service agreements • Delivery order requests
Healthcare/Pharma	Insurance Companies	Insurance Brokers	Other
<ul style="list-style-type: none"> • Purchase orders for narcotics / controlled substances • Consent forms • Clinical trials • Lab reports 	<ul style="list-style-type: none"> • New business processing • ePolicy delivery • eDisclosure delivery • Online memberships • Claims and appraisals • Account maintenance 	<ul style="list-style-type: none"> • New business • Renewals • Endorsements • Account openings and maintenance • Internal (accounting, HR) 	<ul style="list-style-type: none"> • Real estate transactions • Federal tax returns • Law firms / client files • Outsourced accounting • Safety/compliance forms for truckers / transporters

Why E-Signatures?

Better customer experience

- **Complete transaction in one session** – retail call center or online
- **Client never has to return** paperwork due to missing signatures or data
- **Reduce drop-off** that occurs due to process delays

Operational efficiencies & reduce costs

- **Reduce document handling costs** - faxing, scanning, imaging, courier, manual QA; storage and retrieval
- **Offload paperwork** from service reps; reduce reliance on knowledge workers

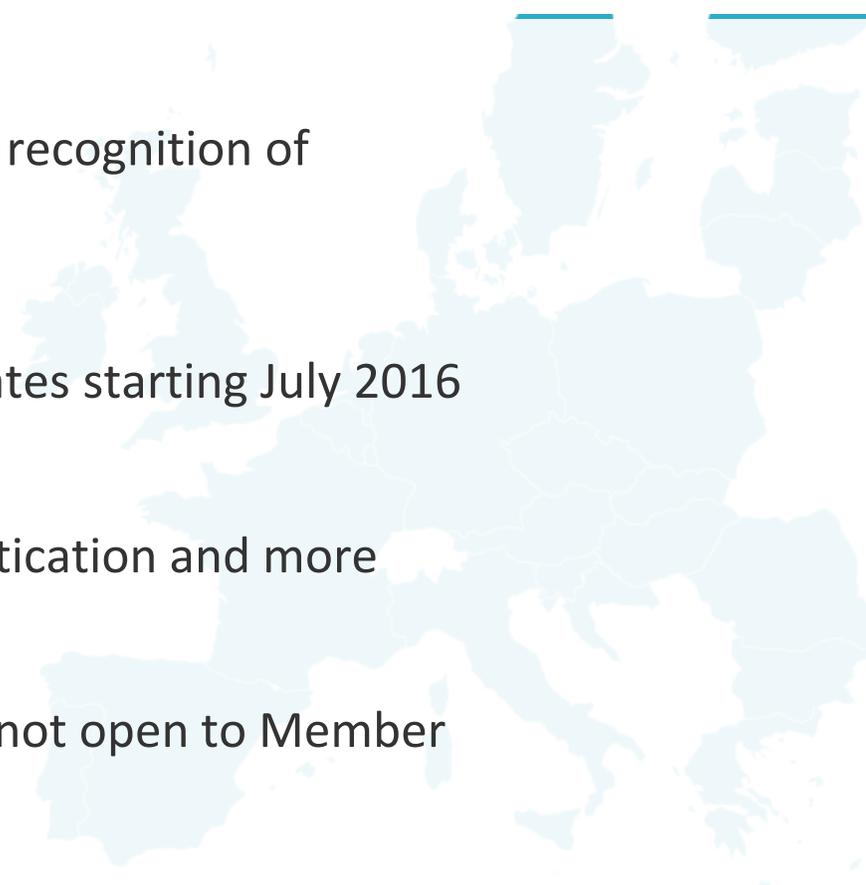

Lower risk with error-free transactions

- **Eliminate errors** and any missing data or signatures through enforced business rules
- **Reduces risk** of non-compliant documentation
- Capture detailed audit trails demonstrating **regulatory and compliance requirements**

TERMINOLOGY AND LEGAL BASICS

European Union

The new EU eIDAS regulation

removes the previous hurdles to cross-border recognition of e-identities & e-signatures

Replaces the EU Directive

and applies uniformly to all 28 EU member states starting July 2016

Broader than the Directive

eIDs, e-delivery, time stamps, website authentication and more

A Regulation, not a Directive

automatically part of all Member States' law; not open to Member State interpretation

eIDAS will make digital business easier in Europe

European Union

Advanced E-Signature

- Promotes the Advanced E-Signature as a widely adopted form of *technology-neutral* e-signature in the market today
See Recitals 27, 50
- “...cannot be denied legal effect and admissibility as evidence solely because it is in an electronic form or does not meet the requirements for qualified electronic signatures.”
eIDAS Article 25, paragraph 1

Qualified E-Signature

- Maintains the Qualified E-Signature to support clear standards on stronger authentication where needed
- “...has the equivalent legal effect of a handwritten signature.”
eIDAS Article 25, paragraph 2

eIDAS will make digital business easier in Europe

E-Signature Defined

- Associate action to document and signature location
- Embed verifiable signature data in document and secure

- Affirmative action with clear purpose
- Apply at signature location for clear intent (consumers)
 - Click-sign
 - Type name
 - Signature-capture

- Attribute act of signing to signer
 - User ID/PIN
 - Email address
 - Shared secret
 - SMS Passcode
 - Online ID Service (KBA)
 - Digital Certificate
 - Graphic signature capture
 - Voice

Terminology Cheat Sheet

Electronic Signature

A legal concept. A way to capture a person's intent to be legally bound by the terms of an agreement or contract.

Identification

Verifying someone's identity. Often done through a government issued document (e.g. passport).

Digital Signature

A mathematical algorithm. A cryptographic technology used to make data tamper-evident.

Authentication

Verifying a user's credentials (e.g. user name and password).

Attribution

Proving that a signature was applied by a specific user. More of a concern in face-to-face transactions when sharing a device.

E-SIGNATURE SECURITY

DOCUMENT SECURITY

3 signers
= 3 digital
signatures

Rev. 1: Signed by e-SignLive
Signature is valid:
This revision of the document has not been altered
There have been subsequent changes to the document
Signer's identity is valid
Signing time is from the clock on the signer's computer.
Signature Details
Last Checked: 2016.01.22 17:42:07 -05'00'

NON-DISCLOSURE AGREEMENT (MUTUAL)

THIS NON-DISCLOSURE AGREEMENT (this "Agreement") is entered into between ACME, Zone Consultants, and Axon.

WHEREAS, both parties for their mutual benefit desire to disclose to each other certain confidential and proprietary information in connection with the evaluation of a proposed transaction between the parties.

NOW, THEREFORE, the parties agree as follows:

Each party agrees that all of its obligations undertaken herein shall survive any termination of this Agreement.

This Agreement constitutes the entire understanding between the parties hereto with respect to the subject matter hereof and merges all prior discussions between them relating thereto.

No amendment or modification of this Agreement shall be valid or binding unless made in writing and signed on behalf of each of the parties by their respective duly authorized officers or representatives.

This Agreement shall become effective on the date first written below and shall continue for three (3) years unless terminated by either Party. The obligation to protect the confidentiality of the INFORMATION received prior to such termination shall survive the Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement:

1 digital signature per signer

A digital signature and audit trail are created for each person that signs

Tamper-proof

Maintains the integrity of the document's content as each person signs

Detects changes

Visibly invalidates the document and signatures if changes are made

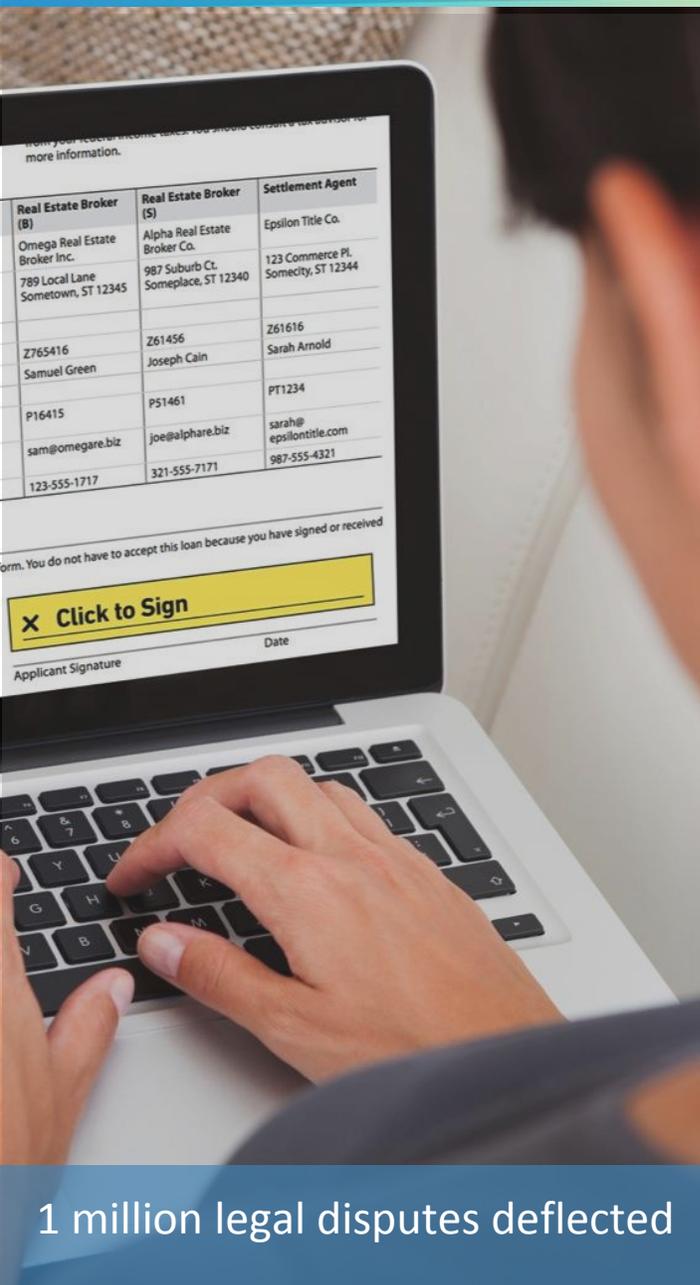

One-click verification

Audit trails are permanently embedded within documents, enabling quick verification

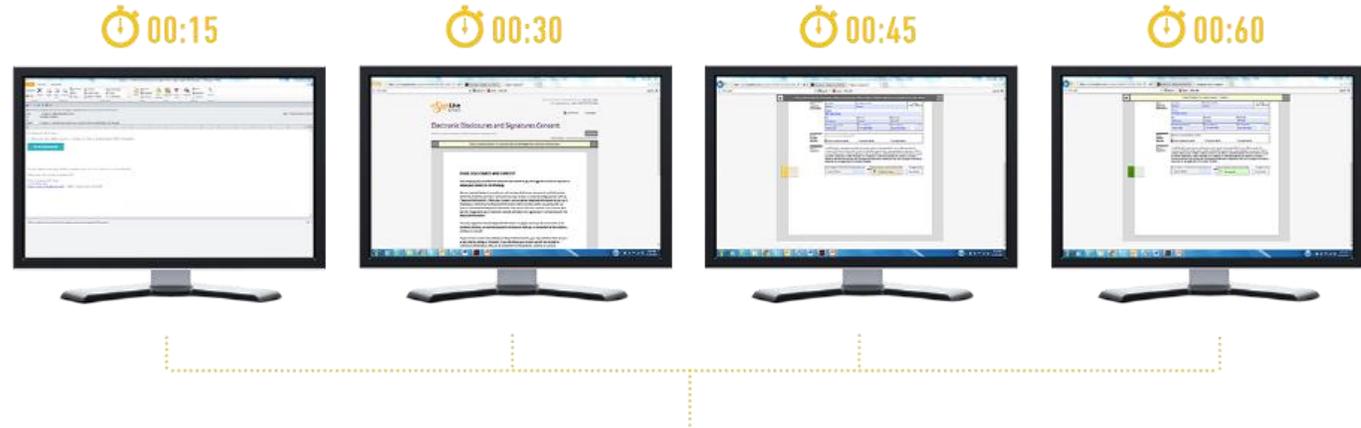

Embedded audit trail

Documents are portable, no need to return to service to verify

AUDIT TRAILS

1 million legal disputes deflected

Reliably reproduce and prove HOW a document was signed

All Content

Appearance of all web pages and documents presented to signers

All Actions

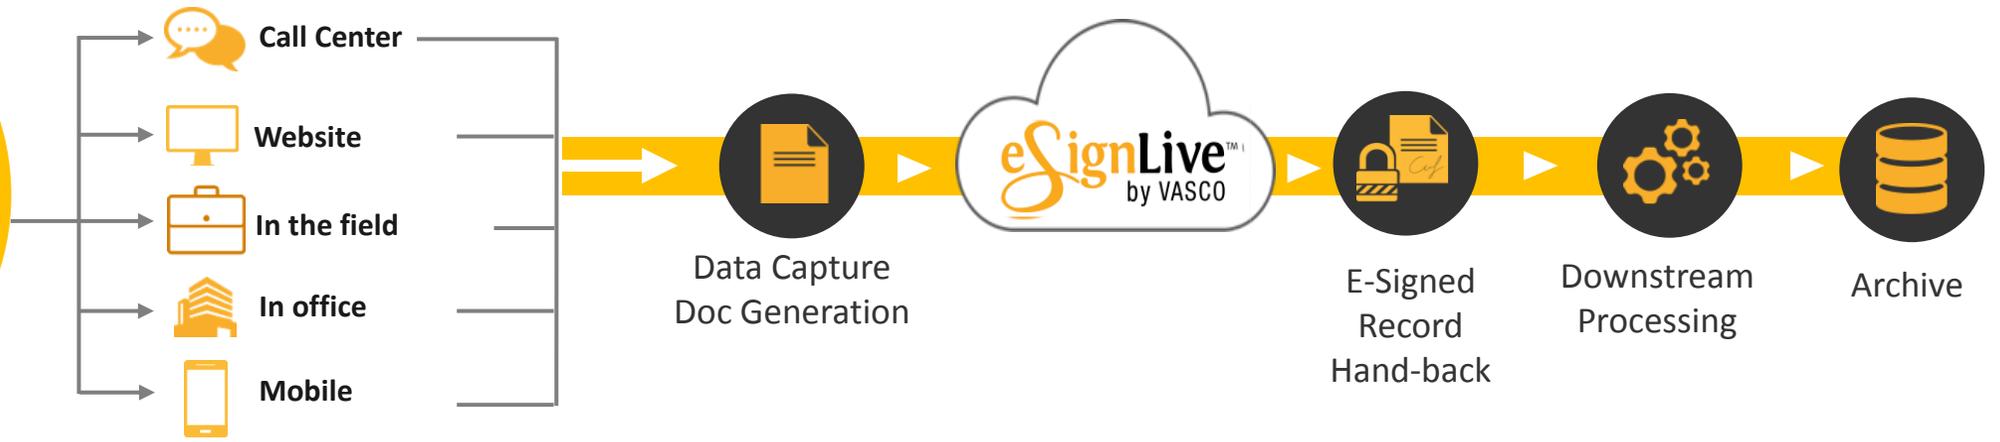

Click to sign / initial / accept / agree – download, save, etc.

Time Stamp

Log in / out, how long spent on each web page and document

Where E-Signatures Fit In

The E-signing Workflow

Access

- Email
- Link from Portal

Authenticate

- Username/pword
- Email invite
- SMS Text
- Challenge-Response
- 3rd Party ID Provider
- DIGIPASS

Present

- On-screen
- On-paper

Data Capture

- Text box
- Checkbox
- Mandatory & Optional

Doc Insertion

- Ancillary docs (e.g. drivers license)
- Mandatory & Optional

Sign

- Click-to-Sign
- Click-to-Initial
- Signature Capture

Deliver

- Secure download
- Email attachment

DEMO!

1. Transaction with 2 signers
2. Document Security
3. Evidence review

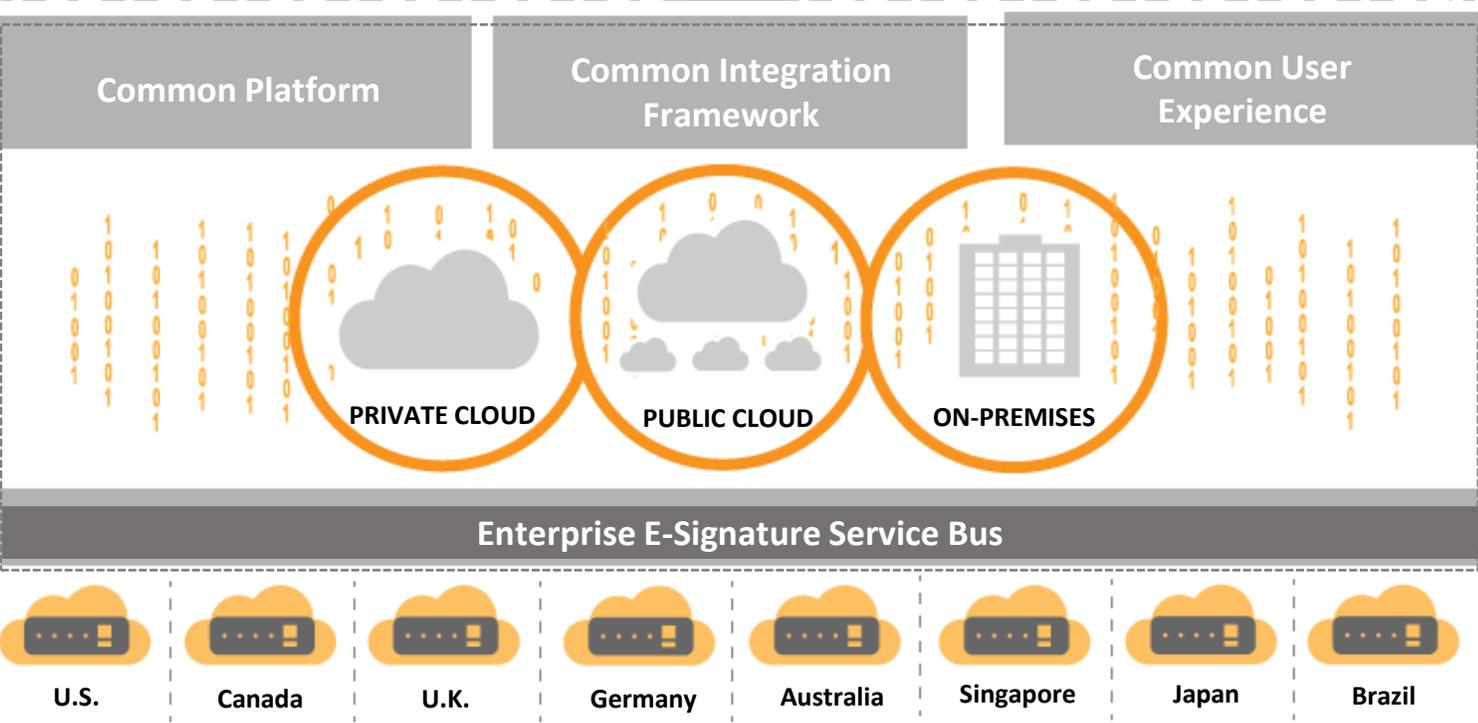

INTEGRATION & OPTIONS FOR GETTING STARTED

Deployment Options

*Code once.
Deploy anywhere.*

Scalability

Easily scale across multiple lines of business – both locally and abroad

Performance

Maximize system performance no matter what deployment type

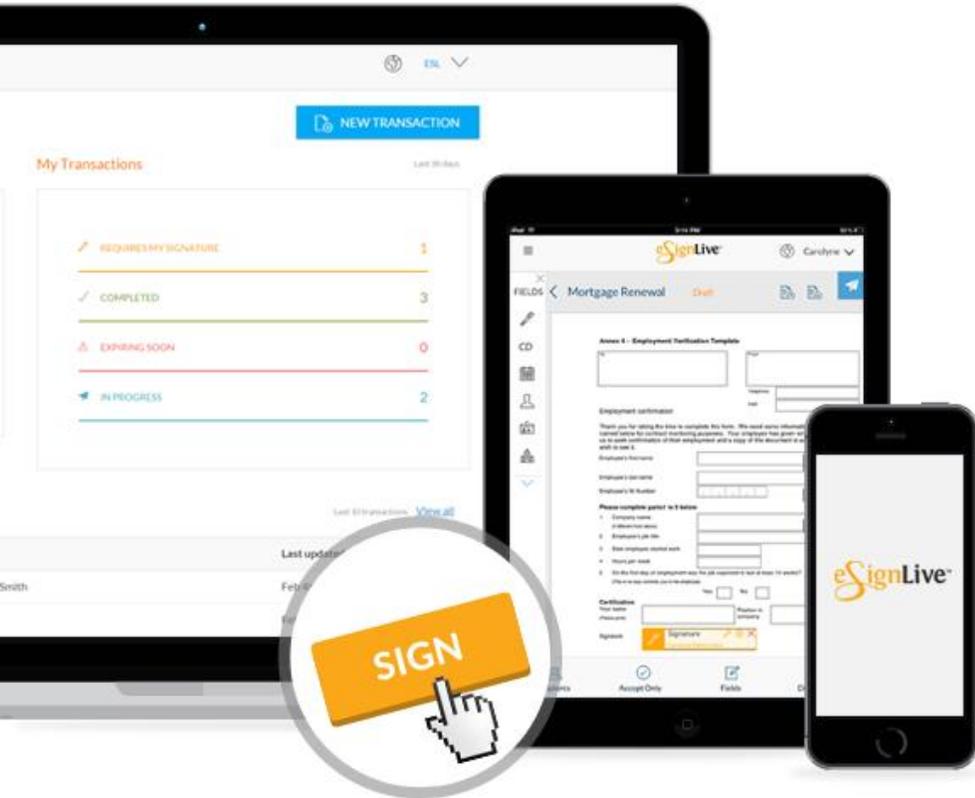

Data Compliance

Meet in-country data residency requirements with global data centers

Cost

No upfront hardware or infrastructure. Start developing in the cloud, then deploy anywhere.

How to Get Started with E-Signatures

Professional Plan

Start e-signing in minutes using our stand-alone web service and mobile app. No IT support required.

Enterprise Plan

Integrate with core systems and applications. Fully supported web and mobile SDKs and API.
